Use a small transfer punch to mark the location of all holes (transfer punches ...

DIY CNC Router : 30 Steps - Instructables

It's also a good idea to build an enclosure for DIY Dremel CNC and some people already build one, I am also planning to do this in the near future. Another safety improvement would be to add a big red safety switch so that in case something bad happens you can easily stop the machine (we can also do that in CNCjs but it takes more time and isn't that reliable).
