If you know where you fall, you can work on moving towards the healthy center of the spectrum, which comes with a host of benefits, including, greater self-confidence, a passion for life, and mutually caring ...

The Narcissism Spectrum Model and The Narcissism Test

Narcissism Test (NPI) Narcissism is one of the oldest and most written-about traits in psychology. The present test, the Narcissistic Personality Inventory (NPI), is one of the most classical and widely used tests in psychology. The test is designed to measure subclinical narcissism in the general population. That is to say, the test cannot be used to diagnose Narcissistic Personality Disorder (NPD) and someone who gets highest possible score on this test does not necessarily have NPD.
